

Information Regarding Coronavirus (27.03.2020)

Thank you for your interest in attending one of our medical education events.

In light of the COVID-19 outbreak, we are in a unique situation which is changing on a daily basis. We are fully aware of the travel restrictions being placed on healthcare providers and hospitals and we are carefully monitoring updates and recommendations from, amongst others, The World Health Organisation (WHO).

The health, safety and well-being of all – faculty, staff, exhibitors, delegates - who participate in our annual Update is our highest priority. Under this directive we decided to postpone our event to **October**, having confidence in an ameliorated situation.

This event will be livestreamed and therefore, if you are feeling uneasy in October about attending, we will offer to change your on-site ticket to a livestream ticket. You will still receive all of the content from the comfort of your own home or office, and will still be able to interact with the speakers through the live chat, and will still receive all the presentations to download after the event, including a selection of videos on-demand.

We are still working on taking the following measures to ensure the safety of our delegates on-site:

- 1) Placing disinfectant stations at every door in the congress location
- 2) Increasing the daily cleaning and disinfection cycle of the sanitary and toilette areas.

Please follow the known codes of conduct, in order to avoid the risk of infection from others, in the same way you would with other viral infections.

Current information and rolling updates from the World Health Organization can be found at:
<https://www.who.int/emergencies/diseases/novel-coronavirus-2019/events-as-they-happen>

We can assure you that we are taking this situation extremely seriously and are assessing it on a daily basis, and we will follow the guidelines of the authorities as the risk assessment changes.
